

## Price list

The installation of the record player at home is included in the price within the Benelux. The BarcaNova Sonore package consists of the turntable, armboard, the outboard motor unit and the POM isolation feet. Included are two belts: one made of tape, the other of rubber.

## Tonearm advice

A 12-inch tonearm is recommended as the standard solution, due to the size of the turntable platter.

## Ikeda synergy

The Sonore turntable operates in beautiful harmony with the Japanese brand Ikeda. Therefore, a package is offered which includes the 12-inch Ikeda IT 407-CR1 tonearm and an Ikeda cartridge. The two cartridge options within this package are the 9TT stereo cartridge and the 9 mono cartridge.

BarcaNova Sonore turntable price list	Prices incl. VAT

Armboard: The standard options are SME or Ikeda. Other armboards can be made to specification. Ask for details for more information.

Installation at home: The service is only available in BENLUX.

Cartridge: The model can be outfitted with an Ikeda 9TT stereo or 9 mono cartridge.

## Ikeda Benelux exclusive

The Sonore package with its Ikeda tonearm and cartridge is limited to the domestic market only, being Belgium, The Netherlands and Luxembourg.

## Export

The BarcaNova Sonore turntable is available for export to hi-fi importers outside the domestic market, but without the Ikeda tonearm and cartridge package. Please consult your Ikeda distributor for these additional products.
